SUMMARY

Software Engineer with 2+ years of production experience building Full Stack applications end to end — from accessible, high-performance UIs through to Node.js services, REST/GraphQL APIs, and PostgreSQL data models. Comfortable owning features from concept to deployment, collaborating with Product and Design, and integrating LLM/agent capabilities into user-facing products. Experienced with AWS, CI/CD, and containerized delivery; working knowledge of Next.js, Tailwind CSS, Python, CMS/CRM platforms, and event-driven, real-time systems.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, Python, SQL, Java, C++, C
Frontend: React.js, Next.js, Redux, Angular, Tailwind CSS, Framer Motion, Vite, Responsive & Accessible UI
Backend & APIs: Node.js, Express.js, REST APIs, GraphQL, API Design, Service Architecture
Databases: PostgreSQL, MongoDB, Redis, Relational Data Modelling, Query Optimisation
Cloud & DevOps: AWS, Docker, CI/CD, Vercel, Netlify
AI & Integrations: LLM APIs, Generative AI, Agentic Workflows, Vector Databases, Real-Time & Event-Driven Architectures
Platforms & Tools: Salesforce, WordPress, CMS/CRM Integration, Git, GitHub, Strapi, GitHub Copilot, Cursor, Kiro
Engineering Practices: Component-Based Architecture, OOP, Data Structures & Algorithms, Performance Optimisation

EXPERIENCE

- Software Engineer — To The New Pvt. Ltd** Jul 2025 – Present
- Engineered scalable, production-grade full-stack web applications end to end using React, Next.js, TypeScript, Redux, Node.js, and Strapi, owning features across frontend, APIs, and backend services.
 - Built and consumed REST and GraphQL APIs, translating business and client requirements into reusable UI components and dynamic form workflows, cutting development effort by ~35% and improving maintainability.
 - Optimised performance using SSR/SSG in Next.js, improving Lighthouse scores by ~30% and cutting page load time by ~25%; partnered with Product, Design, QA, and backend engineers in agile sprints to ship accessible, polished features.
- Software Developer Trainee — To The New Pvt. Ltd** Jan 2025 – Jul 2025
- Completed hands-on full stack training across React, Next.js, Express.js, Node.js, PostgreSQL, and AWS, building and deploying REST APIs and relational data models via CI/CD to cloud environments.
 - Contributed to a live client project end to end — translating requirements into shipped features, debugging production issues, and improving application efficiency by ~15%.
- Frontend Developer Intern — Jogaz Info Pvt. Ltd** Jul 2024 – Jan 2025
- Developed scalable, reusable UI components in Angular, optimising rendering and responsive layouts for a seamless, accessible cross-device experience.
 - Collaborated with senior developers in an agile environment on production-level feature development, integrations, and UI enhancements.

PROJECTS

- RateYourProfessor**
Next.js, MongoDB, REST APIs, Tailwind CSS, AWS
- Designed and shipped a production full stack professor review platform end to end — owning the Next.js frontend, Node.js/Express services, and relational data model powering search, filtering, and anonymous reviews.
 - Built and integrated REST APIs for professor, university, and review workflows, using a pre-save data hook as the single source of truth for stat recalculation; deployed to Vercel and AWS with CI/CD.
- Medicare**
Next.js, React, Express.js, Node.js, PostgreSQL, REST APIs
- Built a full stack healthcare platform end to end — doctor search, appointment booking, authentication, pagination, and role-based access with reusable, responsive React components and integrated RESTful APIs.

EDUCATION

- Master of Computer Applications (Software Engineering)** 2023 – 2025
University School of Information, Communication and Technology, GGSIPU CGPA: 8.39
- Bachelor of Computer Applications** 2019 – 2022
Sri Guru Tegh Bahadur Institute of Management and Information Technology, GGSIPU CGPA: 9.26

ACHIEVEMENTS

- Awarded the **Spot Award (Jun 2026)** and **Star Performer of the Month (Nov 2025)** at To The New.
- Recognized as an **Exceptional Performer at the USICT SDC Dev-a-thon 2024** for outstanding performance and problem-solving.
